

The TalkBox
DOUBLE™ has
innovative features,
like a large desk
and a sliding door to
provide superior
space and flexibility.

Accessible Features

- 01** Spacious Desk - Measuring 84" wide x 13.5" deep, the large desk provides more room to spread out and collaborate!
- 02** Power Outlets - The desk space features 2 power outlets, 2 USB, and an available access hole to run other cables such as ethernet.
- 03** Carpeted Floors - Our carpet floors help make the booth feel cozy while improving sound absorption - perfect for very high traffic areas and longevity. Made out of 100% recycled plastic bottles.
- 04** Collaboration Focused - Tackable panels are great for collaboration with the team.
- 05** Acoustic Panels: Two of the walls are covered with large sound-absorbing acoustic panels made from post-consumer recycled glass bottles and covered with high-grade acoustic fabric.
- 06** Skylight - Large pane acrylic skylight provides increased natural light while maintaining excellent acoustic performance.
- 07** Plug - Located on the left is a 7-foot power cord that plugs into any standard (120V) outlet. No hardwiring is required.
- 08** LED lighting - Halo LED lighting provide the perfect balance of natural and bright light perfect for video conferencing.
- 09** Adjustable Ventilation System - Ultra high power ventilation keeps you comfortable in any environment with its nine airflow settings.
- 10** American Made: Talkbox is committed to producing the highest quality products made in the USA.
- 11** Space-Saving Sliding Door: Talkbox Booth designs utilize an automatic sliding, reducing the booth's footprint while maximizing usable space. Constructed from high-quality tempered safety glass and aluminum framing.
- 12** Privacy: Our unique partial privacy wall design eliminates the fishbowl effect.

Dimmable: 0-360 Lumens Lumens

Warranty

All TalkBox products come with a 2-year parts warranty whereby a defective part will be replaced with proof of defect and at the discretion of TalkBox. The lighting has a 2-year warranty on manufacturers defects. The warranty will not cover damages caused by normal wear and tear, misuse, after-market modifications, abuse or improper installation. TalkBox will not be held liable for injuries of any kind resulting from the use of any of our products. TalkBox products are not designed to be used outdoors. Such usages will automatically void the warranty. TalkBox will not be liable for any delays or damages due to circumstances or acts beyond its control.
